

Neurology Consults and More...

Receiving a diagnosis of a neurological disorder can be overwhelming. Developing the most effective plan of treatment requires not only the skill of the neurologist who combines the best available evidence with expert clinical judgment; it also requires modern diagnostic and treatment methods. With its convenient location within St. Joseph Hospital, our Neurology practice offers seamless referrals to nearby resources right on campus, including MRI, C-T, nuclear imaging, physical therapy and other modalities of diagnosis and treatment.
